TECHONLOGY INSTRUCTOR POSITION

About Us

Founded in 2008, Nullspace is a leading robotics training agency in Singapore, providing quality training and consultation services for Singapore schools and educational institutions. We have also expanded our operations to include a state-of-the-art private learning establishment - Nullspace Centre for Robotics Learning (C4RL), located along Upper Bukit Timah Road (C4RL-West) and Figaro Street (C4RL-East).

Role – Technology Instructor

As a Nullspace Technology instructor, you are part of a high performing team that is responsible for delivering robotics and coding training and working with teachers to ensure that learning goals are met. You will be responsible for developing lesson plans and constantly testing new platforms for use in the classroom. You will also be working closely on our technology education product line in terms of idea generation, curriculum development and user testing.

- Take charge of competition and enrichment training for schools under you.
- Create and update lesson material periodically.
- Develop new microcontroller based projects through a rapid prototyping approach.

Qualifications

We are looking for a driven, independent problem solver who thrives under challenges

- Diploma in engineering fields preferred.
- Experience in competitive LEGO Robotics.
- Experience with Arduino or other microcontrollers.
- Fabrication skills and working knowledge of laser cutters and 3D printers.
